

# AFRICAN ALLIANCE of Producers of Complementary and Nutritious Foods

## Vision

To create a structured and dynamic network of African companies processing nutritious and safe foods, preferably fortified, to improve the nutrition of young children and other nutritionally vulnerable groups, such as pregnant or lactating women and the elderly, and to strengthen the competitiveness of the agri-food industries in Africa.

## Strategic Objectives

- Strengthen the technical and business capacities of member companies.
- Improve access to quality inputs, packaging, modern equipment, and innovative technology.
- Facilitate access to financing and investment.
- Strengthen the market, structure the marketing and export of nutritious and safe products and raise awareness among consumers and decision-makers about the importance of nutrition.
- Encourage a regulatory framework favourable to the production and appropriate marketing of nutritious and safe foods.

## Steps

1. Set up the network as an independent organization
2. Expand the Network's membership across the continent
3. Mobilize technical and financial partners around the Network's action plan
4. Raise funds to support the Network's action plan
